Assistant Director, Research and Reports

Collection Request CD No. A-2229.1

REFERENCE: Memorandum from Chief, Liaison Division, O/CD, to the Assistant Director for Research and Reports, dated 14 Feb 51, subject as above.

1. Subject request has been completed by the Geographic Division and is submitted herewith.

2. In regard to future requests from the Department of the Air Force for population figures, it is suggested that O/RR not be asked to fulfill them if they are of this character and order of magnitude. It is felt that this type of service job could have been more appropriately done by the requesting office within the Air Force. Furthermore, it is believed that the information on source material collected from the Geographic Division by Mr. Norman Hatchman of the Air Force during January 1951 could have facilitated the fulfillment of such requirements by Air Force personnel.
